

Gorilla Logic Selected as Top 20 Showcase Company by CSIA for Their DEMOGala

*Colorado Software and Internet Association Recognizes Gorilla Logic
as Top Colorado Technology Solution Provider*

Broomfield, CO – September 30th, 2009 – Gorilla Logic, the firm known for delivering enterprise application development solutions with a 10X productivity and quality benefit, today announced they have been selected by the [CSIA](#), Colorado’s Technology Association, as a Top 20 Showcase Company for their annual [DEMOgala](#) scheduled for October 8th in Denver, CO.

“We are honored to have been selected by CSIA as one of the Top 20 Showcase Companies,” said Stu Stern, CEO, [Gorilla Logic](#). “Considering there were over 130 technology companies nominated, being selected for our open-source products, [FlexMonkey](#) and [OpenGXE](#), further validates the quality of the solutions and services we provide.”

As Colorado’s largest and most influential association for the more than 5,500 companies in information technology in Colorado, CSIA provides professional development, policy and government leadership, and representation to unite and grow the industry and the important companies and people involved.

CSIA’s DEMOGala features more than 45 speakers discussing the newest trends in technology from cloud computing to software development to SEO to open source and mobile applications to name a few. With speakers from companies including GoDaddy, Shutterfly, NetSuite and FirstBank Data Corp., Gorilla Logic’s selection as a Top 20 Showcase Company further elevates their position as a leader in the technology solution space.

“Our judges chose Gorilla Logic as one of the top 20 most innovative technology companies this year because of their leading-edge work in enterprise applications,” said Su Hawk, president, CSIA. “We’re proud to have this smart company and people involved, because the national tech leaders who are attending and speaking should see what Gorilla Logic is all about, and we’re pleased to provide that forum.”

Gorilla Logic specializes in providing industry leading development experts to a wide range of clients focused on ensuring the highest level of quality and performance in their enterprise applications while at the same time managing risk and development costs. Able to deliver expertise in mobile device application development, Adobe Flex, Java, Agile methodologies; Gorilla Logic offers complete enterprise development solutions and continues to add to their open-source tools solutions designed to compliment their focus on return-on-investment, cost management and quality for Fortune 500 companies.

About Gorilla Logic

Gorilla Logic is an enterprise application development services and consulting firm known industry-wide for providing “gorilla” consultants that deliver a 10X productivity improvement over other options. With industry-leading expertise in mobile device application development, Java-related technologies and Adobe Flex RIA application development, Gorilla Logic has been engaged by Fortune 500 companies in industries ranging from financial services to entertainment to aerospace and government to work on mission critical projects. Gorilla Logic also develops tools to decrease the product development lifecycle and open sources them for the benefit of the market – FlexMonkey (www.flexmonkey.gorillalogic.com) and OpenGXE (www.gorillalogic.com/opengxe). About DEMOgala

DEMO Gala is the region’s largest tech conference. 40+ Founders/CEOs of tech companies across the nation will speak on 15+ panels and 20 Colorado companies will demonstrate their technology. The day will open with 3 keynotes, Meetup Co-Founder, GoDaddy President, and Shutterfly CEO. The 1,000+ attendees then have the opportunity to attend multiple sessions and experience the demos. A networking reception ends the day, giving a perfect opportunity to meet and build relationships with technology leaders.
