

## **Gorilla Logic Announces Its Nomination for the 2011 Technology Apex Awards**

*Gorilla Logic's outstanding work and dedication in enterprise application development leads to recognition in the 11<sup>th</sup> annual CSIA Apex Awards*

BROOMFIELD, Colo., June 14, 2011 – Gorilla Logic, ([www.gorillalogic.com](http://www.gorillalogic.com)), a leader in enterprise application development services and creators of open source test tools for mobile and rich Internet applications, announced today it has been nominated for the 2011 Apex Awards, the prestigious technology awards recognizing outstanding accomplishments and leadership by Colorado's advanced technology companies and professionals. The winners and finalists will be announced live on Tuesday, July 12, 2011 at The Robert and Judi Newman Center for the Performing Arts at the University of Denver.

Since the program's inception in 2000, CSIA's Apex Awards have provided well-deserved recognition to the numerous technology companies in Colorado by highlighting their success stories and technical advancements. Presented in five categories for companies and five categories for professionals, the awards recognize success, innovation, vision, leadership, excellent customer support and community contributions.

"We are honored to be named a nominee for these prestigious awards that recognize technology excellence," said Stu Stern, CEO of Gorilla Logic. "This nomination reinforces the overall mission of Gorilla Logic, to help each and every customer exceed their software development business goals through the delivery of exceptional application development services."

"Colorado's technology industry has experienced much growth over years, and it's important for these successful companies to be recognized," said Su Hawk, president, CSIA. "Our Apex Awards provide the industry a once-a-year opportunity to celebrate their success, and generate awareness around these notable companies, which includes Gorilla Logic."

### **About Gorilla Logic**

Gorilla Logic provides custom enterprise application development services to many of the world's leading software-driven organizations. It has a rich history of applying software engineering best practices to reduce the time and cost of delivering high-quality, full-featured applications with advanced functionality. Its technical leadership in mobile, rich Internet and enterprise applications showcases its broad platform expertise and exemplifies its commitment to software development best practices and quality. Its innovative work with emerging development platforms led to the creation of two industry leading open source tools for automated testing, FlexMonkey (Flex applications) and FoneMonkey (iPhone/iPad Apps). To download Gorilla Logic's open source tools, and to learn more about the company and its services, please visit ([www.gorillalogic.com](http://www.gorillalogic.com)).

**About CSIA:**

CSIA is the technology industry leader in uniting and growing Colorado's information technology industry by providing advocacy, education, business connections, and information, while supporting economic development, unification of technology stakeholders, and larger recognition of the industry and the people involved to develop and promote Colorado's technology industry. CSIA also works nationally to ensure Colorado's technology voice is heard, through TECNA, a coalition of technology associations across the United States and Canada, as well as with TechAmerica, the national lobbying organization for federal issues. Since 1994, CSIA has been involved in legislative issues and public policy to represent the information technology industry in Colorado, and has provided a number of annual programs, events and connections to support business success. For more information on CSIA please call (303) 592-4070 or visit [www.coloradotechnology.org](http://www.coloradotechnology.org)
