

**GORILLA LOGIC'S ERIC BRUNO TO DISCUSS USE OF JAVAFX ON  
WALL STREET AT JAVA ONE CONFERENCE**

*Bruno to share the planned expansion of JavaFX inside national bank and how it will  
enhance the user experience*

**WHO:** Eric Bruno  
Gorilla Logic  
Senior Software Developer  
(<http://www.gorillalogic.com>)

Eric Bruno is a senior software developer for Gorilla Logic, Inc., a leader in enterprise application development services and creators of open source test tools for mobile and rich Internet applications. His experience ranges from client/server and highly distributed development, to multi-tiered web and transactional and real-time software development.

**WHAT:** "JavaFX on Wall Street" (Session 24350)

This session will describe the work Bruno has been conducting at a leading national bank in New York City. Bruno will highlight his work with teams to build and deploy JavaFX components in an existing Java Swing application which is used by companies globally. Called Locus, this application is a key financial research and analytics application with a large user base, across a large set of financial markets. He will share how he has deployed JavaFX 1.3.1 successfully, and how the project is moving to JavaFX 2.0. He will describe how he integrated JavaFX into Swing, how it's driving increased Locus usage, and the future planned expansion of JavaFX inside the global bank.

**WHERE:** Java One  
Hotel Nikko - Nikko Ballroom I  
222 Mason Street  
San Francisco, CA 94102-2115

**WHEN:** Mon., Oct. 3, 2011  
5:30 - 6:30 p.m. (Pacific Time)

**CONTACT:** For more information or to set up an interview with Eric Bruno, please contact:
